

SCHOOLINSIGHT™

Web-based Student Management System

Easy and affordable student management; simple to use and implement.

SchoolInsight is an affordable, web-based student management system that allows schools/districts to easily adopt 21st-century infrastructure, operate more efficiently, and educate more effectively.

HIGHLIGHTS

Small to Medium Districts and Independent Schools.

SchoolInsight was specifically designed to meet their unique needs. It provides all the functionality to run schools without the complexity and overhead required by large districts.

Easy to Use by Office Staff. Special attention has been paid to allow easy data entry and retrieval. The time saved allows office staff to work faster and be more productive. It's so easy to use, and we train your staff for free.

Affordable. Since SchoolInsight is subscription-based, there are no large up-front costs. The low annual subscription fits nicely into the yearly budget. Customers never need to float a bond to pay for it.

Information Availability. Authorized staff can all access student data, increasing productivity and collaboration. SchoolInsight can generate many standard and custom reports required to run a school/district.

Easy to Start. Easy to load your existing data into the system. No startup fees.

Seamless Integration with TeacherEase. SchoolInsight and TeacherEase share the same internal database. Any work done in one instantly appears in the other.

Web-based Service. Accessible anywhere via the Internet. No software installation or hardware purchase required. Reliable, secure, and always available.

MODULES

Demographics	Transcripts	Discipline
